ALUMNI

Very interesting course, definitely knowledge to be used in the real world!"

For me, studying in the MBA in European/Asian Management was the best decision in my life. During the time in the IGC I have met people from all over the world, learned different cultures and shared great moments. I believe that the lecturers we had were not just fully qualified, but often expert consultants and very experienced in their respective fields. The strong focus on case studies provided me with valuable references on best practices around the world, and the highly interactive and dynamic nature of classes offered excellent opportunities to extend my personal network. Apart from studies, IGC encouraged and provides me with a good platform and opportunities to get involved in various extra-curricular activities. Furthermore, the many company visits we had offered me a deep insight and practical knowledge and understandings of Business Management.
