In recent years, professors have joined us from the Glasgow Caledonian University (UK), Leeds Metropolitan University (UK), University of Valencia (Spain), and the Federal University of Pernambuco (Brazil), as well as colleagues from Mexico. Full-time faculty members of HSB City University in general hold (at least) a PhD and have a proven track record of practical experience relevant to their respective disciplines. Thus, they are able to provide an academic perspective with first-hand managerial experiences. Moreover, high-ranking part-time lecturers from business practice familiarize our students with different business sectors and company functions.
The MBA in Global Management provided me with the essential skills and experience to start my own company in steel construction. As I have an engineering background, IGC provided me with the necessary managerial skills for this step. As I am starting my business abroad, I have benefited much from my international colleagues’ experience, as they have different backgrounds which helped me to understand other aspects of the construction industry.
